

OUTBOARD MOTOR BOAT RACES FOR SUNDAY NOON TO HAVE MANY ENTRIES

**Four Beautiful Silver Cups to Be Awarded—Course on
Inside Auto Bridge—Four Different
Classes to Be Run.**

Bay St. Louis and the Coast, as well as boating interests from New Orleans and other points, are keyed to a high pitch of enthusiasm in anticipation of Sunday's 'outboard motor races.

The Bay-Waveland Yacht club, Emilio Cue and Charles A. Breath are fostering this event with every indication and assurance of success from every angle. How many people will be attracted will best be told Sunday, easily thousands.

There will be four races. Classes A, B, C and D. The first will be for skiffs, the winner to receive a silver cup from Breath & Cue. Second, a similar prize from the same donors; third, a silver cup from Duvic firm of New Orleans, and from the fourth, unlimited class—first for all—cup from the Waveland Yacht club, all appropriately inscribed. These cups are at present in the show window of the Beach Drug store. On the evening of the races presentation will take place to winners at Hotel Weston. Time of beginning, 2:45 o'clock.

The celebration was a great moment for Harrison county and the Mississippi Gulf Coast, and every thrill, every merit and every plaudit was well deserved.

The public will be allowed to view the races from the auto bi-cucent bridge, as the course has been staked off with that purpose in mind.

**"DICK" BARTHELMESS
RETURNS IN ROLE
HE MADE FAMOUS**

Coming to A. & G. Theater
in "Little Shepherd of
Kingdom Come."

Richard Barthelmess, a favorite of
Bay St. Louis screen fans, comes to

Authorities Plan to Remove
Short Turn in Spanish Trail
at Main and Dunbar Ave.

Imminent domain proceedings, a
provided for by law, has been insti-
tuted by City Attorney R. L. Genin-

the A. & G. theater Sunday and Monday nights in his newest picture, "The Little Shepherd of Kingdom Come."

This is the picturization of the classic story of the Kentucky mountains by John Fox, Jr. It is an ideal role for Barthelmess, a part much like his famous "Tol'able David," which

against Mary Lee, owner of the southeast corner of Lot No. 4750 Ward 1, this piece of land it appearing "has become necessary for public safety and convenience to connect up St. Francis street (Old Spanish Trail) to Dunbar avenue, at Main street.

engendered him to millions of cheerful goers in all parts of the world.

The story deals with the adventures of a mountain boy, homeless and without family ties. It has many thrilling and dramatic moments, and a sweet love story that grips the heartstrings. While the grips are loosened by the story, includes the best information obtainable.

From the best information obtainable

able, it appears Mary Lee was offered \$60.00 for the strip and same was tentatively accepted. Later, when the authorities were ready to execute the deed it appears the price demanded was \$800.00. A compromise of \$100.00 purchase price was offered by the city but to no avail. Hence

Both the county and city are interested in widening and straightening the road at this dangerous juncture, and everything possible is being done to hasten carrying out the intention of The Board of Supervisors. The best action for erecting this road widening on both sides was recommended.

night after the commencement programs. Everyone is cordially invited.

Operaetta to Be Given May 24th.

Thursday, May 24th, the Primary department will give the operaetta, "Peter Rabbit," and the Fourth and Fifth grades will give the operaetta, "The Three Little Pigs." Tickets are \$25.

"Piedmont Limited" From New Orleans Hits Car—Driver Escapes.

Only one day, classes, then—some finals. "Some feel sure of themselves and a few are worried, but all are sure of graduating."

Next week will mark the end of four years of toil and pleasure. Some are happy at the thought of having, but a few are rather sad, though that

Chevrolet sedan is no more—if not a thing of the past altogether then was only sufficient left to be taken away from the L. & N. tracks Friday night at the intersection, of Washington street, where Mrs. Moxie A. Lah was killed while driving in a truck a year ago.

is only when they think of the good times that are being left behind.

The majority of the class have decided to go on to college, the rest have not decided yet.

The Seniors cordially extend an invitation to all to attend the Baccalaureate sermon at the school Sunday.

day morning, May 20th, at 11 a. m. Also everyone is invited to the graduating exercises Friday night, May 25th.

The Seniors have selected their class song and the hymns that are to be sung Sunday morning at the services.

The Board of Trustees have offered the use of the high school auditorium to St. Stanislaus college and convent for the graduating exercises this year. We hope they will decide to accept this offer and hold their exercises in our new school auditorium.

POLITICAL ANNOUNCEMENTS
For Congress
EUGENE FLY, of Gulfport.

OUTBOARD MOTOR RACES.

Considerable attention is directed to Bay St. Louis by the fact of the forthcoming outboard motor races, which will occur in front of the city on Sunday next, and to which both local and outside interests are intensely centered. Bay St. Louis and Waveland have long sustained an enviable reputation for its aquatic sports; the public has always responded and at no time have failed in the enjoyment and satisfaction of such event, and The Sea Coast Echo bespeaks for Sunday's outboard motor races every element of success possible.

Messrs. Emilio Cue and Charles A. Breath, co-operating with the Bay-Waveland club, are to be commended for their enterprise and high character of sportsmanship. We hope there will be several recurrences of events all during the summer.

There are many wise men and some poets.
 Money is not all of life, but it is a good start.

The "candid" in candidates is overlooked by most of them.

The successful man does as he pleases but is careful of what pleases him.

If the worst comes to the worse we could turn the nation over to the politicians.

The world, it seems, is divided into classes of people, pessimists and candidates.

This summer it will be hard to tell whether summer dresses are longer or thicker.

About this time of the year the home gardener begins to wonder whether his effort will pay.

Just about the time that we get set for summer weather we run into a cool spell that reminds us of winter.

The worker who thinks manages to do more, with less effort, than the man who tries to do less without effort.

We see where a citizen of this plane intends to attempt a rocket trip to the moon. What will he do if he gets there?

Correct this sentence: "You have charged me \$3.57 for these shoes but the price you said you would sell them to me for was \$5.86."

Our extra slice of pie for this week is reserved for our own use and the flavor will be, well, are you going to eat this slice of pie?

Japan announces that it is "protecting" the lives and property of its nationals in Shantung. That means China will pay through the nose.

If there is anybody left who believes that the sweet young things are as innocent as they used to be, he will please stand up and be counted.

Every now and then we read the story of the successful man, who got so tired of life, that he blew out his brains. Where is the success part?

If they try Sineclair a few more times and jurises look at him like the recent Washington dozen, Congress will probably award him the Congressional medal.

One sign of the progress in civilization is shown by the fact that when the big dams spring a leak none of the valley residents put their trust in a plumber.

If you think character is the most important factor to be considered in your business career you can test the theory by trying to float a loan on your character.

We heard of a man the other day who could not afford to take the Sea Coast Echo. As you might suspect he is a rich man until it comes to supporting the local church.

Community growth depends largely upon co-operation for public enterprise. To co-operate requires communication that is dependable. The newspaper is the agent for this purpose in progressive communities.

There are some people in authority everywhere. There are some who know how to act in these positions. Others don't know. They will find out after they lose their jobs.

We have never been able to understand why a politician thinks he has to promise everything to everybody, or why most voters are fool enough to believe everything that is promised them.

It is wonderful to think that by training the babies of this generation we could make a new race of men and women if it was not for the handicaps that come to them from their parents.

You can make most any of the sweet young things smile by telling them how good looking they are. As far as statistics show this remark has never caused an argument between man and wife, when made to the wife.

Subscribers are invited to treat the editor of this journal to a "Pay Up" party. Everybody can help make the occasion a success by writing his name on a little piece of paper, showing the name of the man who payment will be made.

The Sea Coast Echo is published weekly, except on Sundays, and is sold at the rate of \$2.00 per annum in advance. Single copies are sold at the rate of 10 cents.

YOU OWN PART OF BAY ST. LOUIS.

Possibly you may not ever have looked at it in this light, but you are a stockholder in Bay St. Louis. You may not own a single foot of land, you may not even be in business for yourself, but you are, nevertheless, a stockholder.

When you think of a stockholder, you naturally picture a man of some wealth with investments in this or that enterprise. You picture him attending meetings of the stockholders of the concern, directing the affairs of the factory or concern and receiving at regular intervals a check for his portion of the earnings.

The same thing applies to you as a resident of Bay St. Louis. The fact that you live here, makes you a stockholder here. The investment you have in this big corporation is the interest you show in the growth of the town. The more interest you manifest, the larger the dividends you will receive through increased business done here. The interest you show should be in the community spirit of city building. The more interest you pay in, the bigger the interest checks you will get back.

Therefore, it is to your interest to build up every enterprise here. The more business they do, the more business you will do and the more you do the more prosperous you will become. This holds good with the employee, just the same as it does with the employer. An employee cannot hope to receive large pay from a small concern which is struggling to make ends meet. On the other hand, employers like to see their employees contented, and with a growing prosperous business they are able to pay wages which bring about this condition.

Dollars turned out of the channel of trade here are those which sap the vitality of this community. If you buy by mail from some city far removed from here, you are draining the life blood out of your community and indirectly undermining the structure which is supporting you.

OUR APPIAN WAY ON BEACH FRONT

Another milestone in the march of public improvement for Bay St. Louis and the balance of Hancock county is noted in the sale a few days since of \$325,000 bonds and letting of a contract for hardsurfacing all of the Waveland beach front road, including that unpaved portion of Bay St. Louis. The program includes all of that section from Waveland to Clermont Harbor and Lakeshore to a point known as Central avenue.

This is one of the county's outstanding improvements and includes building of seawall, sidewalk and drainage, improvements that some time back were, without thought of and well nigh considered impossible.

However, with the progressive and far-seeing offices of both Board of Supervisors and Hancock County Road Protection Committee it has become possible that these things should come to pass. We have long gone through the period of vision and that of realization is becoming accomplished.

Such improvements not only advance values, but have stabilizing effect and renew confidence. Our Bay St. Louis and Waveland section of the Mississippi Gulf Coast have well come into their own, and our people are naturally jubilant and hopeful for the immediate future.

We can view these improvements nothing less than colossal, and while our public officials who have made all of these things possible and come to pass do not seek praise, in fact do not wish it, but only expect the satisfaction which comes to those who do their duty faithfully and in greatest measure, we wish to pay tribute with the simple words, well done.

COOLIDGE SIGNS JONES BILL.

Signing of the Jones-Reid flood control bill by President Coolidge Tuesday not only insures the South from further disastrous inundation from waters of the Mississippi but assures protection against possibly the greatest menace that has ever threatened the people of the South.

President Coolidge was adverse to signing the bill, for, he, contended, his fear was set on the possibility establishment of such bureau and its attendant expenditures might mean a raid on the public treasury, besides, he argued, it was a matter of local legislation for the States and not for the country at large.

However, to his credit, he has seen the matter in its true and one light, and, accordingly, signed the bill.

To Louisiana and to our own Mississippi the significance of this legislation is by far of more than ordinary significance. If we can save our people of the levee districts the ghastly burden of taxation, the appalling toll of devastation, the horror of a constant apprehension of concern, to say nothing of the apparent utter futility of it all since in the absence of federal control all efforts have utterly failed, we can now look for a better and more permanent condition. Our States have inadequately attempted to cope with the situation, losses of our people have failed to be made good, but in future federal authority, under provisions of the new bill, assumes all responsibility, taking over the entire situation, remedying and financing; restoring confidence and assuring the return of prosperity fled since the unprecedented flood of 1927.

Our own Gulf Coast, too, will benefit, since the prosperity of New Orleans and adjacent territory, so vitally interested in the flood matter and control, means our success as well. All praise to Coolidge, like the wise man, who changed his mind.

FLYING LIKE BIRDS.

Men have been interested in the flying of birds for thousands of years and have always conceived that the proper type of airplane must embody the principles utilized by the large gulls and other birds of this type. The present development of aviation has not altogether eliminated this idea.

The other day Leonard W. Bonney was fatally injured while making his first flight with his Gull airplane, which he had modeled very carefully after the bird for which it was named. Bonney was not a "nut," having learned to fly under Orville Wright in 1910 and having retired from professional flying six years ago in order to study the flight of sea gulls which he did in a scientific manner.

The fact that his new plane, which rejected almost every accepted theory of present flying machines, rose into the air and flew at terrific speed for half a mile before something happened and caused disaster would indicate that there is something to the theory advanced by the dead man.

There is a lesson for improvement everywhere. Just because one man has failed does not mean that the thing is impossible. Bonney's failure was a lesson to the world.

This Week.

Proud of Her Boy.

Ask P. M. Wooley.

Superstition and Fear.

The Blooming South.

BY ARTHUR BRISBANE.

(Copyright, 1927)

The mother of Captain Wilkins, who flew over the North Pole recently, is "glad my boy George has done what he set out to do. We mothers don't say such things as we feel, let's say what we think." Mrs. Wilkins thinks her son "made more of what he learned in a little country school than many men have been able to make of a college education." He built character in that little school.

Have you horses or cows? Ask P. M. Wooley, builder and head of the American Radiator Company, about his development of a vacuum cleaner for horses and cattle.

This writer's tests, finds that the vacuum process cleans horses and cows to perfection, better, more quickly and economically than could be done by hand.

All dust, including the hair, is carried into a receptacle by air current. Horse barns and cow stables can be kept in perfect order, production of clean milk made easier, by the new method. And grooms no longer are obliged to breathe in dust as they clean the animals. Those who can afford the machine should use it, and in dairies of any size its use should be compulsory—it takes disease-breeding flies with it.

Following the violent earthquake shocks in southeastern Bulgaria, many peasants went insane. Such insanity is caused by a combination of ignorance and superstition. An earthquake in this country, or a big fire, like that in Chicago, brings on a frenzy of rebuilding, and a boom in real estate.

We do not know much, and are not free from superstition. But we know enough not to go crazy when the earth slips and shakes a little.

With a few exceptions, like the Libson earthquake, superstitious fear has always been the worst part of a quake. Superstition has believed that the Lord was shaking the earth in anger. We know that old earth is only settling into her final shape, meaning harm to nobody.

The South is energetic and growing. Governor Smith of New York chose well selecting North Carolina for his golf holiday. He is studying one of the most amazingly progressive states of the Union.

These five men, northbound from Miami, got off the train at Asheville, N. C., the other day to pay their respects to the Governor: Judge Olvany, Surrogate James F. Foley, Bernard F. Gimbel, George Le Bontellier, vice-president of the Pennsylvania Railroad, in charge of its subsidiary, the Long Island Railroad, and Arthur Foran, all of New York.

They all agree that North Carolina typifies the South and American progress generally. "The whole State," said B. F. Gimbel, "seems as closely built up as the arch between New York and Philadelphia."

The Cannon Towel Mill, biggest on earth, employs 5,000 men and women. The well-known B. V. D. gentlemen and the great Chicago firm of Marshall Field have enormous manufacturing plants in North Carolina. Other manufacturing institutions spring up daily.

The state has water power practically unlimited, at low cost, an energetic working population and extremely good living conditions. Don't overlook North Carolina in your plans.

Flood waters of the White river have overswept levees, sweeping through five counties in Arkansas. In Mississippi the Tombigbee and Loxapallia rivers are nearing the danger stage. More rain before Wednesday would mean serious danger.

Perhaps the Government will decide that \$750,000,000 invested in flood control would be cheaper than another flood.

Mr. W. S. Gifford, president of the American Telegraph & Telephone Company, will spend two thousand million dollars on new construction in the next five years. Uncle Sam is rich enough to spend one-third that amount to save crops and lives of his nephews in the Mississippi Valley.

Smith in a Walk.

It looks like a landslide in the Democratic national convention at Houston for Governor Al Smith.

The sweeping victory of the New York governor in the California primaries shows conclusively that it is Smith against the field, and the field is staggering so far behind that it is hardly worth noticing.

It is at least an even money wager today that Governor Smith will be nominated on the first ballot, and further opposition will be futile. The view of this plain state of affairs, which even the radical religious, the Anti-Saloon League, and the Ku Klux Klan must recognize, it would be worse than folly for Mississippi to instruct its delegation to vote against the New York governor.

One of the great plums of affairs, which even the radical religious, the Anti-Saloon League, and the Ku Klux Klan must recognize, it would be worse than folly for Mississippi to instruct its delegation to vote against the New York governor.

(For The Sea Coast Echo)
CAPILLARY ART.

Art is coming under the influence of democracy. Only four times the great artists painted pictures only for churches and rich men's palaces. Statuary was intended to adorn royal courts and the mansions of the opulent and the private parks of the nobles.

Nobility statues are being erected in public places where even the most humble and obscure person may admire them. Pictures are hung in museums which have their free days when the public is generously invited.

It is said that Michelangelo and Raphael and the other artists of that time generally painted only saints or archbishops. Gradually artists discovered that the common life of the people contained subjects quite as interesting and picturesque as the lives of the more favored.

In literature Dickens made quite an innovation when he turned his pen toward the obscure and lowly.

We all want to be rich, of course, and famous, but rich men are not as interesting as they used to be. The most noted monuments to the heroes of the late war were those to the unknown soldier. It was a war won, by the way, by the heroism of the common recruit and not by the startling genius of some Napoleon.

It is a question whether a rich man should build himself a fine house, from the windows of which he can only look out upon the abodes of the poor, or build better homes for the poor that he may regard them from his windows.

Men of wealth are gradually turning their attention toward replacing the slums by better habitations.

Together it looks as if art, if it is to have a firm foundation, must rest upon the basis of the despised details. It is the fashion of the intellectuals to deride the public and to think that only a few chosen ones can appreciate or be benefited by the works of art.

The newest invasion into the ranks of art, if it can be called an art, is the motion picture. This is the most capillary of all arts. It gives to the least and lowest and provides him entertainment which heretofore was for those only who could pay from a dollar up for a seat at the theaters.

For this reason it appears that the moving picture industry, resting as it does upon the appreciation of the whole public, is firmly settled and is in line with democracy.

Bidwell Made Good.

Just a few words concerning that genial, affable little cuss who was elected Lieut. Governor in the primaries last summer, to the surprise of everybody, and probably including himself.

Bidwell Adam made good during the legislative session just closed. He astonished his friends and disappointed his enemies.

A goodly number of unkind things were said concerning Bidwell Adam while he was running for office, and some of them appeared in the Daily News. During the past four months we have revised our opinion.

It was a partisan Senate over which the new Lieut. Governor presided, a Senate composed largely of administration supporters, but at no stage of the proceedings did Bidwell Adam fail to give the minority a square deal.

Although without previous legislative experience, and untutored in parliamentary law, he managed somehow or other to gather an astonishing large amount of information concerning the duties of a presiding officer, and on only a few occasions did he become entangled in the finer points of procedure. On such occasions he frankly admitted his lack of information and reserved his rulings until he could find out about it.

Much can be forgiven any man when it is apparent that he is trying to do the right thing. Bidwell Adam won friends among ariswile enemies because of his intellectual humility, his earnest striving to be fair, and if he made mistakes they were of the head and not of the heart. None of his mistakes were serious, for in no instance was an appeal taken from the ruling of the chair, and that is a remarkable record for a presiding officer who has not gained actual experience in the treadmill of legislation.

To the champion tarpon fisherman of the Mississippi coast we gladly pass this bouquet. He came to Jackson expecting a shower of prizes, and went home with a new crop of friends.—Jackson Daily News.

SORE Could Not Rest

Mrs. J. H. Nichols, who lives at 513 Elm Tree Lane, Lexington, Ky., says:
"Some few years ago, my health was bad. I had very severe pains in my sides. My nerves were in a terrible condition. I could not rest."
The lower part of my body was very sore. I did not feel like eating and did not sleep well at all at night.

A friend of mine recommended a certain ointment and I used it and soon found an improvement in my condition. It relieved my pains and I was able to rest and sleep well.

I am now in good health and I am able to do my work and enjoy my life. I am very grateful to the doctor who recommended this ointment to me.

I am now in good health and I am able to do my work and enjoy my life. I am very grateful to the doctor who recommended this ointment to me.

and amendments thereto, and under and pursuant to proceedings of the Board of Supervisors of said county, duly and lawfully held and attended this board and the board together with the other bonds and coupons forming a part of this issue are payable out of a tax imposed and collected on gasoline, naphtha, alcohol or other substance used in the operation of automobiles or other like vehicles, automobile drivers' privilege licenses and an ad valorem tax on all of the taxable property of and within Hancock county, Mississippi, all as authorized and provided in said Chapter 319 of the Laws of Mississippi of 1924, and amendments thereto.

It is hereby certified, rectified and declared that all acts, conditions and things required to exist, happen and be done and performed precedent to and in the issuance of this bonds have existed, have happened and have been done and performed in due time and manner, as required by law, and that that portion of this bond and the issue of which it forms a part, together with all other indebtedness of said county, does not exceed any limit prescribed by the constitution of said state or by any statute thereof, and this bond is exempt from taxation within the state of Mississippi.

In witness whereof the Board of Supervisors of Hancock County, Mississippi, have caused this bond to be executed under the official seal of said county and signed by the president of said Board of Supervisors, and countersigned by the clerk thereof, and has caused the interest coupons hereto attached to be executed with a lithograph facsimile signatures of said president and said clerk.

This the 1st day of November, A. D. 1928.
Hancock County, Mississippi.
By _____
President Board of Supervisors.
Countersigned:

Clerk Board of Supervisors,
Hancock County, Mississippi.

FORM OF COUPON
Bond No. _____ Coupon No. _____

On the first day of _____, 19____, Hancock County, Mississippi, promises to pay to the bearer at the office of the County Depository of Hancock County, Mississippi, the sum of \$_____, being the interest then due on its road protection bond dated November 1st, 1926.

President.
Clerk of Board of Supervisors.

Be it further resolved that the said bonds shall be validated by the Chancery Court of Hancock County, Mississippi, under the provisions of Chapter 28, Laws of Mississippi, of 1917, and to that end the clerk is hereby instructed to have immediately prepared and forwarded to the Hon. G. G. Lyell, state's bond attorney, Jackson, Mississippi, a certified transcript of the record of proceedings in the issuance of these bonds for his examination and validation.

Be it further ordered that all orders heretofore adopted relative to issuance of bonds numbered 501 to 825, inclusive, amounting to \$325,000.00, be and the same are hereby rescinded.

Be it further resolved by this Board of Supervisors after due deliberation that the bid of Leo W. Seal, of Bay St. Louis, submitted to-day in response to advertisement duly made, be accepted and bid being in the following words and figures, to-wit:

Bay St. Louis, Miss.,
May 7th, 1928.
Hon. Board of Supervisors,
Hancock County, Mississippi.
For \$325,000.00 Hancock County, Mississippi Road Protection bonds, said bonds to be advertised for sale today, we make you the following bids:

For bonds bearing interest at the rate of five and one-quarter per cent per annum (5 1/4) per cent par and accrued interest from date of bond to date of delivery plus a premium of \$5,025.00.

For bonds bearing interest at the rate of five and one-half per cent per annum (5 1/2) per cent par and accrued interest from date of bond to date of delivery plus a premium of \$18,025.00.

We also agree to pay the cost of lithographing the bonds from of expense to the County. The bonds are to be validated by the Chancery Court of Hancock county, Mississippi.

Respectfully submitted,
LEO W. SEAL.

Be it further resolved by the Board of Supervisors that the clerk of this Board be and he is hereby authorized and directed to immediately have prepared three hundred and twenty-five thousand dollars of bonds maturing as set out above and to deliver to the purchaser, Leo W. Seal, at Bay St. Louis after same have been validated, upon payment of the purchase price and to the County Depository of Hancock County, Mississippi.

Be it further resolved that when said bonds are printed there shall be a certificate on the back of each bond is substantially the following:

State of Mississippi
County of Hancock.
Validated and confirmed by a decree of the Chancery Court of Hancock County, Mississippi on the _____ day of _____, A. D. 1928.

_____ Clerk of Board of Supervisors.
_____ President Board of Supervisors.

Report of the County Engineer was received, read and ordered filed.
Report of the Negro demonstration agent received, read and ordered filed.

Report of the county engineer was received, read and ordered filed.
Be it ordered by the Board that the Board adjourn until Wednesday morning, May 9th, A. D. 1928, at 9 o'clock a.m.

JOS. P. MORAN,
President Pro-Tem.
Wednesday morning, May 9th, A. D. 1928, at 9 o'clock a.m., the Board met pursuant to adjournment. Present as on Monday.

Whereas the Road Protection Commission of Hancock county has filed their report to this Board showing that they had advertised for bids for the letting of contract for apron or roadway adjoining sea wall the same being additional road protection in Hancock county as per plans and specifications on file, and

Whereas it appears that they did advertise for three weeks by giving published notice for more than three weeks by advertising in the Sea Coast Echo of Bay St. Louis, being a public newspaper of said county and which paper has a general circulation therein, and said notice appeared therein for more than three weeks, as per proof of publication on file, and

Whereas pursuant to said advertisement there were numerous and sundry bids submitted to the Road Protection Commission, and

Whereas it appears that the bid of the Southern Paving and Construction company is the best, lowest and cheapest bid, and that the same should be accepted, approved and contract entered into with the said Southern Paving and Construction company.

Be it therefore resolved that the report of the Road Protection Commission of Hancock County, accepting the bid and entering into contract with the Southern Paving and Construction Company and the same is hereby approved and adopted as and for this Board and Hancock County.

The said bid and proposal being of the following words and figures, to-wit:

PROPOSAL
CONTRACT "E" ROAD PROTECTION, HANCOCK COUNTY, MISS.
To the Road Protection of Hancock County, Miss.

To the Road Protection of Hancock County, Miss.

The undersigned, as bidders, de-

clared that they have examined the plans and specifications and have made all necessary examinations in order to satisfy themselves as to the character of the soil or any difficulties liable to occur in the prosecution of the work.

The plans are identified by being marked as follows:

ROAD PROTECTION, HANCOCK COUNTY, MISS.
J. W. BILLINGSLEY,
Consulting Engineer.
(Drawing No. 118.)

The undersigned, as bidders, hereby agree that they will contract with said Road Protection Commission of Hancock County, Miss., to furnish all equipment and materials and labor necessary for the construction and completion of the work which may be awarded them by said Road Protection Commission of Hancock County, Miss., for the price stated herein, and will do the work in the manner prescribed by the plans and specifications, said plans and specifications being made a part of this proposal, and will take in full payment therefor the following sums, to-wit:

Item No. 1, approximate quantities, 10,000 cu. yds.; item and prices bid, earth excavation for 30c per cu. yd.; unit price, 30c; total, \$3,000.00.

Item No. 2, approximate quantities, 182,600 sq. yds.; item and prices bid, 6-in. reinforced concrete pavement, one and one-half ft. thick, unit price, \$1.38; total, \$251,268.00.

Item No. 2a, approximate quantities, 182,600 sq. yds.; item and prices bid, 7-in. reinforced concrete pavement for two and one-half ft. thick, unit price, \$2.05; total, \$374,330.00.

Item No. 3, approximate quantities, 18,950 lin. ft.; item and prices bid, type A2 curb with 3 ft. sidewalk for one and one-half ft. thick, unit price, \$1.55; total, \$29,272.50.

Item No. 4, approximate quantities, 30,900 lin. ft.; item and prices bid, type A1 curb with 3 ft. sidewalk for one and one-half ft. thick, unit price, \$1.50; total, \$46,350.00.

Item No. 5, approximate quantities, 56 lin. ft.; item and prices bid, 18-in. concrete pipe, 4-6 ft. cut for two and one-half ft. thick, unit price, \$2.00; total, \$112.00.

Item No. 6, approximate quantities, 56 lin. ft.; item and prices bid, 24-in. concrete pipe, 4-6 ft. cut for two and one-half ft. thick, unit price, \$2.50; total, \$140.00.

The undersigned, as bidders, de-

clared that they have examined the plans and specifications and have made all necessary examinations in order to satisfy themselves as to the character of the soil or any difficulties liable to occur in the prosecution of the work.

The plans are identified by being marked as follows:

CLEAN gasoline...SAFE oil ... today's motors need them

NOW, more than ever before, motors need the extra protection that Pan-Am oil gives. They operate at speeds that develop terrific engine heat. Heat that soon thins and breaks down ordinary motor oils.

perform much better with clean Pan-Am gasoline. Unusual care in refining has removed the dirt and carbon-forming elements found in many gasolines. That means a cleaner motor—less carbon trouble—more power and mileage.

Pan-Am motor oil is safe because it is refined from paraffin base crudes that produce a tougher oil. Thus it holds its body, mile after mile... keeps the hottest friction spots safe from destructive wear.

Your modern car will also

Fill up today at the first Pan-Am pump you see. You can be sure of honest service from any Pan-Am dealer. And you know that the products he sells are produced and distributed by one reliable organization.

Pan American Petroleum Corporation

ROCKS LOSE TO WHITNEY, SCORE 5-1

First Game Bankers Ever Won From St. Stanislaus Rockchaws.

The Whitney-Central Nine defeated the Rockchaws Sunday in a good game by a score of 5 to 1.

After trying hard for several seasons to win the game from the local, Ulrich, another twirler who tried often was playing the keystone sack and contributed his share by two bingles.

The Rocks got nine hits, but they were scattered. They scored the lone tally in the third when Toca singled over second, took second on Perre's out and came in when Bote dropped Glover's fly in center. That tied the score one all.

The Bankers bunched a double and a single to score one run in the fourth. In the ninth they scored three runs on two doubles, two singles and a bobbie.

Box score:	AB	H	O	A
Stanislaus—	5	2	3	1
Toca, ss	5	2	3	1
Perre, 2b	5	0	3	1

Byater, p	4	2	2	4
Ipsen, cf	1	1	0	0

Totals—35 9 27 12

x—Collier batted for Spol.

xxBattled for Egloff.

Score by innings:

Whitney—001 100 003—5

Stanislaus—001 000 000—1

Gaddy, umpire.

Steve Krempasky, of Philadelphia, a one-armed boy, is the marvel of the schoolboy athletic world. He has but one arm, the right, but is a crack baseball player. His right wrist is abnormally developed, enabling him to throw all sorts of curves. He is noted as a pitcher and as a batter.

Stanislaus Noses Jesuits In Dual Meet—64-53

Jesuits' High School feel before the superior field qualities of St. Stanislaus' team in the dual track meet at Stanislaus' stadium on Sunday afternoon by a final score of 64-53.

Tom Daigle, Jesuits, and Lacoste, Stanislaus, tied for first honors with three first places. Daigle showed to advantage in the 100 and 220-yard dashes and broad jump, while Lacoste proved best in high hurdles, pole vault and high jump.

Following is list of events and winners of first and second places:

100-Yard Dash—Daigle (Jesuit), Huberwald (Stan.); time, 10 2-5 sec.

120-Yard High Hurdles—Lacoste (Stan.), McMeel (Stan.); time, 17 2-5 sec.

1 Mile Run—Schiro (Stan.), Hammond (Jes.); time, 5 min. 2 3-5 sec.

440-Yard Run—Leppert (Jes.), Connor (Jes.); time, 58 sec.

220-Yard Dash—Daigle (Jes.), Huberwald (Stan.); time, 23 4-5 sec.

The Coast Stars Team

Manuel Mauer, captain and pitcher of the Coast Stars, is a prominent shoemaker and he seems to know what the old apple is made of. He swings it like a bullet leaving a gun.

Sal Vichor, Collier is often called upon to relieve his captain and he, too, knows what it is all about because he often drives the cows to and from his home.

Peter Noto, first baseman, is a ladish man. Every time he sees a young girl he swings the ball harder to home.

Tony Benedetto, second baseman, never misses a ball. He is so well in trim of catching peaches.

Gasper Maurigi, third baseman, is his mamma's baby boy. Every time he hears the word "ball" he goes wild on third.

Edward Pouyadean, shortstop, sure thinks he is a wonder, but when a ball comes he scoops it up like he scoops oysters.

Salvador Noto, right fielder, is very bashful. He can't catch a girl, but he never misses a ball.

J. V. Bontemps, center-fielder, better known as "Ham Gravy," when out in the field, looks like Babe Ruth, catching a homer.

George Boudin, left fielder—"Hello George," you resigned the Macabees, but thought the stars were brighter when young flappers were around.

Elmer Murtagh, catcher, is a shiek at dating girls, and when it comes to catching balls, Irish can't be beat.

A Baseball Fact

The Coast Stars defeated Gulfport to a score of 14 to 13 at Gulfport Sunday evening.

The Coast Stars will play Bingham Sunday at Dunbar avenue at 2 p.m. Any game wanted with the Coast Stars write to Captain Manuel Maurigi, Box 254, Bay St. Louis, Miss.

Field Meet.

Half Mile—Schiro (Stan.), Huck (Jes.) Leppert came first, but was disqualified for cutting in front of runner, his time was 2 min. 10 sec.

Hop, Step and Jump—Lacoste (Stan.), Snee (Jes.); distance, 40 ft. 2 in.

220-Yard Low Hurdles—Snee (Jes.), Robichaux (Jes.); time, 29 2-5 sec.

Broad Jump—Daigle (Jes.), Hein (Stan.); distance, 19 1-2 ft.

Pole Vault—Glover and Geuniot (Stanislaus).

Shot Put—Leger (Stan.), Seafide (Stan.); distance, 42 ft. 1-4 in.

High Jump—Lacoste (Stan.), Hein (Stan.); 5 ft. 3 in.

Discus—Claverie (Jes.), Courreges (Jes.); distance, 106 ft. 2 in.

Javelin—Glover (Stan.), Heinen (Stan.); distance, 135 ft. 5 in.

Mile Relay—Jesuits: Connor, Meyer, Hammond and Daigle.

L. & N. HAS HEAVY SHIPMENT OF "BABE RUTH" CANDY BARS

Heaviest Consignment of Candy Ever Moved South in Privately-Owned Cars.

A shipment of 1,719,000 candy bars loaded in nine special Baby Ruth refrigerator cars recently moved from Chicago via the Louisville & Nashville Railroad to Atlanta, Nashville, Memphis, Birmingham, Montgomery, Mobile, Jacksonville and Winston Salem. According to the May number of the L. & N. Employees' Magazine this is said to be the largest consignment of candy ever moved to the South in privately-owned refrigerator cars.

Home

By Nancy Hafl

To ring the doorbell, to open the door, to enter the house—this is always an adventure, when you call at another's home.

The personality of the house is first felt in the hall, which should extend a cheery welcome to the family, turning from the outside, and offer to strangers as a cordial hospitality.

This may be expressed by an arrangement of bright pictures, hung at either side of a central mirror or by a larger picture, with a mirror on the opposite wall. Another plan is to hang the mirror between two lamp brackets over the hall table, with a group of color prints on another wall.

Or a colorful wall hanging may be used above the table to provide a background for candle-sticks and a pottery bowl vase.

So much depends on first impressions—and in the hall good ones can be achieved so easily!

A NUTRITIOUS DISH.

Simmer together 1 cup of boiled rice, 1 cup of tomatoes. While cooking, mix together 1 pound of chopped round steak and 2 or 3 onions. Add 1 tablespoon chili powder and heat thoroughly in a skillet containing a large lump of butter or margarine. Add to the rice and tomatoes and cook for 10 or 15 minutes, stirring constantly.

DID YOU KNOW—

That a survey of public schools proved the physical development and grades of children who used stimulating drinks at mealtime were far below those of children who did not?

We should remember that weak cocoa, a cereal beverage or a fruit drink takes but an instant to prepare. Each is safe and wholesome for little folks, and, in justice to them, should take the place of other beverages that retard mental activity and growth.

PACKING PICNIC SALAD.

Next time you plan a long drive, with a picnic basket tucked away in the car—remember that salad can be kept fresh and cool if you put in an enameled ware bucket with a small bottle filled with cracked ice set in the center.

FRY CAKES THE SMOKELESS WAY.

Make a little salt bag and rub the gridiron with it instead of grease; then cakes won't stick and there will be no smoke odor.

REMOVES PAINT SPOTS.

No matter how hard paint splatterings have dried on windows, they can be removed by rubbing the glass with boiled vinegar.

KEEPING BUTTER WITHOUT ICE.

Butter may be kept hard without ice by sealing the dish in which it is contained in cold salt water. Do not allow the water to come over the top of the dish.

TO PREVENT CURDLING.

Vinegar often curdles when mixed with salad dressing. A generous pinch of salt added to the dressing will smooth it out at once.

MAKES BRIGHTER LIGHTS.

Lamp wicks soaked in vinegar and thoroughly dried will give much better light and eliminate smoke.

SAVING STEPS.

If a holder is fastened to a tape pinned to your apron you will always have a hot dish holder handy when cooking.

How much extra freshness can be given to the home in summer by the addition of a few colorful prints, chosen with special care to have them suggest all that is cool and delightful.

A Coast landscape; one of Hein's forest lanes; a wide stretch of sandy beach with whitecaps rolling in; perhaps the fountain corner of a lovely French garden, or a group of old-fashioned flower prints—Can't you see these pictures dressing up the old familiar corners until they seem like entirely different rooms?

We need to remember that exquisite color prints of the world's best pictures are within the reach of all of us today. We are quite ready to invest in new slip covers and draperies when money is put into them. Let us not forget that fresh, colorful pictures are equally important in planning enjoyable summer homes.

WASHING THE MILK GLASS.

Tumblers or pitchers that have held milk should never be put directly into hot water. Rub first with cold water to prevent cloudiness.

PREVENTS TARNISH.

If a lump of camphor is put in the chest or drawer where silver is kept it will prevent the silver from tarnishing.

Weekly News Letter.

BY W. F. BOND.

Now is the time to begin to make plans for our schools for next year. The legislature has very generously appropriated enough money for an eight months' public school term where the respective counties are doing their part. No one expects the State to pay the entire cost of an eight-month term. The counties and districts are expected to do their part.

Many counties are already doing their part, in fact, some districts are doing more than they should. At a meeting of the county superintendents this week plans were made, which if carried out, will guarantee eight months' school term in every county.

Many counties are already doing their part, in fact, some districts are doing more than they should. At a meeting of the county superintendents this week plans were made, which if carried out, will guarantee eight months' school term in every county.

Mississippi Brevities

BANDITS, BONEHEADS—

Jackson, La., citizens heard that bank bandits fleeing from Columbia were headed toward their town. Excited, they got out guns, blocked streets, halted a roaring Chrysler coupe. From the coupe stepped offcers from Tylertown, raging furiously at such delay in their pursuit. Abashed citizens argued; the bandits escaped.

BODIES BURNED—

Slick snakes squirmed in the slime of an old cistern owned by S. L. Bud-dies, Hillsboro planter. To kill them, Planter Buddies poured in a half gallon of gasoline, dropped on it a lighted match. The snakes were entirely killed, Mr. Buddies nearly.

AND HOG ADOLPH—

Robert Lampley, Columbus, got drunk. So did his pig, Adolph. When Lampley was jailed drunk Adolph grunted but stuck by him, spent the night in his arms.

THIN GRAY LINE—

As 84-year-old Brig. Gen. Z. Ward-law, Ulica, walked smiling down the steps of a Little Rock hotel last week he slipped, fell, fractured his skull. A few hours later aged, gray-uniformed veterans viewed apprehensively another vacancy in their wide-gapped ranks.

CRAZY COWS—

In Water Valley bleat-eyed cows plunged at milkmen, fences, other cows. Three, mad, had to be shot. It was the first of an expected scourge of rabies following a mad dog's rampage there recently.

CANT BRAG—

A Rhode Island Red hen of Philadelphia has the record for this season's smallest egg. Her product, little larger than a sparrow egg, was not enough to cackle over.

HOOK 'EM TO COWS—

A new method of putting waste energy to work was brought forward last week when the Itawamba County News suggested that "There was enough handshaking in Itawamba county during last summer's pre-election campaign to milk enough cows to keep a cheese plant running for weeks at Fulton."

SHOT AT ME SUES—

W. B. Ellis, Midway, says he will sue prohibition officers who came near killing him and family recently when they pumped many a pellet of lead into the back, sides and tires of his car. Officers say they "thought he was a rum runner."

FORTY WIDOWERS—

Forty of the veterans who live at Beauvoir are widowers. Some are widowed by war, some by pneumonia, some by heart disease, some by cancer, some by old age. They are all now in the hands of the government.

so Beautiful—

a car to be proud of wherever you go

Wherever the Bigger and Better Chevrolet is driven, it is singled out for attention and comment.

Its low-swung bodies are built by Fisher, with all the mastery in design and craftsmanship for which the Fisher name is famous. Beautifully beaded and paneled... stream-lined on a wheelbase of 107 inches... and finished in gorgeous colors.

of genuine, long-lasting Duco—they rival the costliest custom creations... not only in brilliance of execution, but in richness and completeness of appointments as well.

Truly, the Bigger and Better Chevrolet is a car to be proud of wherever you go. Visit our showroom today—and learn for yourself what a great car it is!

QUALITY AT LOW COST

With Gossard Completes

REAL hip support, up-lifting lines to bust, the smart silhouette of the moment's approval are instantly yours. An understanding of the modern mode is Gossard's—an understanding of each individual figure need. This GOSSARD Complete is model 1582. It is made of satin tricot—featuring double thickness through the lower sections, and generously inserted with elastic. Elastic shoulder straps prevent pulling, and invisible boning gives the garment smooth control. Try it on in our department today. \$15.

Jos. O. Mauffray

The Gossard Line of Beauty

At a recent wedding, the bride's brothers, two soldiers, a policeman, and a sailor, were all present. The bridegroom went quietly, I understand—Pammy, G. Show.

NOTICE TO BIDDERS.

On Monday, May 21st, 1928, at two o'clock P. M. at the Schoolhouse, the Trustees of the Sellers School will sell to the highest bidder for cash two Chevrolet trucks equipped with sets of transportation bodies. Also will let the two routes now being served by said trucks, and routes separately, and for the truck and route with same. The trustee reserves the right to reject any and all bids.

W. H. HARRIS, Sec. Board of Trustees, D. J. EVERETT, County Supt. of Education, Bay St. Louis, Miss., May 1, 1928.

CHANCERY SUMMONS.

The State of Mississippi, To Edmund Augustin, Josie Augustin, Mrs. Paul Perre, Fernand Augustin, Edouard Augustin, James Augustin, Cora Augustin, Jules Wehr, Mola Wehr, Joseph Bernard, Mona Bernard, Morris Bernard, Gaston Bernard, Walter Wehr, You are summoned to appear before the Chancery Court of the County of Hancock, in said State, on the 2nd day of July, A. D. 1928, to show cause why you should not be declared insolvent, where you are defendant.

NOTICE TO WATER RENTERS

CITY OF BAY ST. LOUIS.

Notice is hereby given to all water renters that on June 1, 1928, all rents fall due and are to be paid from that date on.

Failure to pay on or before July 1, 1928, water will be shut off to delinquent users, without further notice.

Payments are to be made annually, in advance, according to law, and I am instructed to enforce the law to the very letter. However, in fairness to all, this notice is published.

I am at my office at the City Hall daily during business hours.

FERDINAND H. EGLOFF, City Waterworks Collector.

May 1, 1928.

Don't Gamble with CHEAP Oil—

Play Safe with "STANDARD" MOTOR OIL

WHEN you gamble with cheap oil, the odds are all against you. You stake a valuable motor against a few pennies difference in price. The pennies you save may later go out as dollars on repair bills that a good motor oil would have prevented.

"STANDARD" MOTOR OIL is refined up to a standard—not down to a price. It is the most popular motor oil because it is sold, because motorists KNOW from experience that it gives them the best lubricating value.

STANDARD MOTOR OIL COMPANY
